

Tear Tape Print Registration

A new tool for Cigarette Marketing from Accu-pac

The **Accu-pac Tear Tape Print Registration** facility is designed to **complement** the standard **Accu-pac Film Print Registration System**. The new feature will enable the use of **print registered tear tape or print registered film** to be used on the **same** packaging machine.

Simple changeover is achieved by the operator at the press of a button.

Tear Tape Registration is available as an option with all new systems or as a **retro-fittable upgrade** to all existing systems.

The upgrade has all of the features that are available with the full Accu-pac Print Registration System.

- **Print Repeat Tolerance - Accu-pac** is designed to accurately position the printed tear tape **irrespective of the print repeat tolerance** specified to the printer.
- Enables use of **pre-printed tear tape** for on-pack **marketing and sales promotions**.
- **Any pack size**, any length or width of tear tape.
- **Delivery Time** from receipt of order - typically eight weeks.
- **User adjustable print position** on the pack **during machine operation**.
- **Automatic correction and rejection** of out of registration packs following automatic and manual splice of tear tape.
- **Automatic set up** of print position following re-threading of tear tape.
- **Automatic stop** of wrapper if the registration mark is missing or undetected.
- **Operator instructions displayed** on the colour touch screen interface.
- **Fault messages and On-line Help displayed** on the colour touch screen interface giving reasons for the system stop or malfunction.
- The colour touch screen interface is supplied in **dual language**, English plus **customer specified language**.
- **Engineering diagnostics** are available through the operator panel.

Available for all existing and new Accu-pac installations on the following machines:

- GD C600
- GD4350 (*All cutting head variations*)
- FOCKE 401 (*Single and Two Knife versions*)
- Molins WM2
- Molins WRAPPER 4
- Schmermund FK
- Schmermund FFK
- Scandia 708
- Scandia 716
- Sassib CP1
- Sassib DELTA
- GD OW Carton Overwrapper
